Avoid Sync Conflicts with Sync Traffic Control
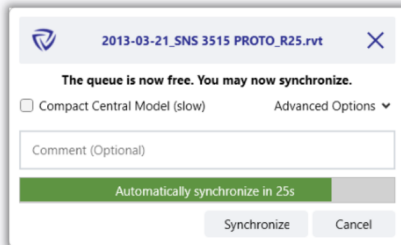

Here are five messages you may see when syncing in a busy central model.
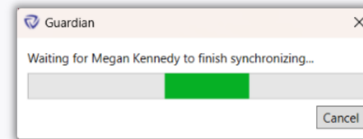

1

2013-03-21_SNS 3515 PROTO_R25.rvt

The queue is now free. You may now synchronize.

☐ Compact Central Model (slow)　　Advanced Options ∨

Comment (Optional)

Automatically synchronize in 25s

Synchronize　Cancel

When nobody else is syncing:

- There is a 2 minute countdown. Afterwards, Guardian will automatically start syncing.
- Click "Synchronize" to start syncing immediately.

2

Guardian

Waiting for Megan Kennedy to finish synchronizing...

Cancel

When someone has the sync dialog open:

- It is someone else's turn in the queue and they're in the process of beginning to sync.
- Click "Cancel" to be added to the queue and receive a reminder when it's your turn to sync.
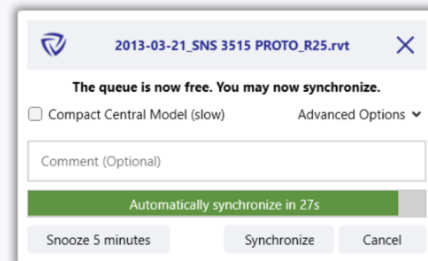

3

Sync Conflict with User

Megan Kennedy is currently synchronizing the file.
Another user is currently synchronizing the same file. Select **Add to Queue** to be notified when the file is free to be synced.

Comment (Optional)

Password

Add to queue　Synchronize　Cancel

When someone is already syncing:

- Click "Add to Queue" to be notified when it's your turn to sync.
- Note: a password can be used to bypass the queue. Otherwise, the only option is to join the queue.
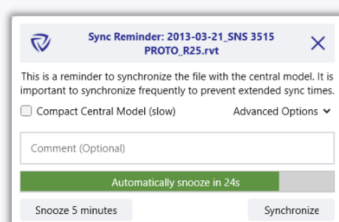

4

2013-03-21_SNS 3515 PROTO_R25.rvt

The queue is now free. You may now synchronize.

Automatically synchronize in 27s

Snooze 5 minutes　Synchronize　Cancel

When it is now your turn to synchronize:

- Guardian will prompt you to sync. If you are in the middle of modeling, click "Snooze" to delay.
- Note: You can enable the sync to automatically start when the timer runs out.

5

Sync Reminder: 2013-03-21_SNS 3515 PROTO_R25.rvt

This is a reminder to synchronize the file with the central model. It is important to synchronize frequently to prevent extended sync times.

Comment (Optional)

Automatically snooze in 24s

Snooze 5 minutes　Synchronize

When you haven't synchronized in awhile:

- Reminders, based on active time in the project, will ask you to sync only when the queue is free.
- They may become more frequent if you snooze.
- If you continue to snooze, you will eventually be required to sync.
